

# LIFTING SYSTEMS

## STAN DESIGN

[www.standesigninc.com](http://www.standesigninc.com)

### THE ULTIMATE TRUCK SERVICE JACK

**Why work twice as hard?  
Lift the whole front end  
or rear end in one go!  
Not a corner at a time!**

**Lifts on the axle or  
On the frame! Your end  
lift(Bumper jack) can't  
do that!**

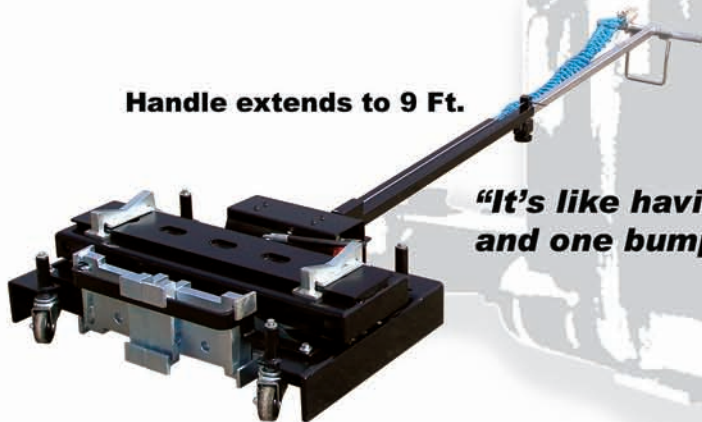

**Ideal for all Heavy-Duty truck and bus repair  
shops. Perform service on wheels and tires,  
brakes, suspension, alignment and much more...**

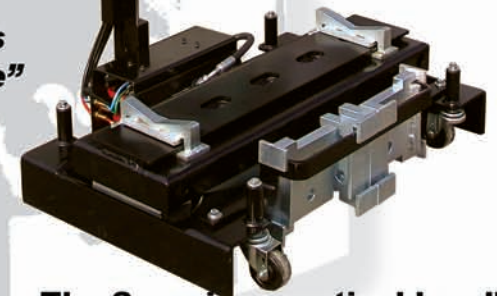

**Easy to use control handle  
up & down buttons  
detachable pendant remote**

**Handle extends to 9 Ft.**

***"It's like having two axle jacks  
and one bumper jack all in one"***

**Lower the Scorpion's handle  
and it glides easily under the  
lowest truck axles and the deepest rear ends**

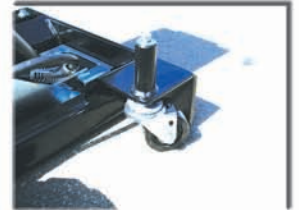

**The Scorpion's vertical handle  
provides a comfortable working  
position...no more back pain**

# (866) 782-6529

## TJ12 Features:

- 24,000 lb. capacity 12 tons
